As a comprehensive medical plan, GREAT MediValue looks after your financial needs by covering all the medical expenses listed in the Summary Table of Coverage and Benefits, up to the stated limits. This includes both pre-and post-hospitalisation treatments, Intensive Care Unit expenses and surgical fees, emergency accidental outpatient coverage and accidental death.

High overall annual limit that refreshes every year with no overall lifetime limit

With the rising cost of private healthcare, it is reassuring to know that there is a medical plan with a high financial buffer which can protect you from any unexpected health setbacks.

GREAT MediValue provides you with a high overall annual limit of RM5,000,000, and it refreshes every policy year, so you will never have to worry. There is also no overall lifetime limit, making sure your medical needs will be looked after as you age.

By adding GREAT MediValue Plus, you can extend your overall annual limit by an additional RM10,000,000, thus increasing your total overall annual limit to RM15,000,000. This gives you the coverage you need to protect yourself and your loved ones from any financial disruptions due to a health crisis, so that you can focus on your recovery and wellbeing.

Wide range of cancer-focused coverage from genomic test to advanced medical treatments

Being diagnosed with cancer usually requires intensive medical treatment or major surgery to give you the best chance of recovery. With genomic test covered under GREAT MediValue, your doctor would be able to learn more about the cancer and recommend the most suitable treatment plan for you.

By adding GREAT MediValue Plus, you will also have access to a wide range of cancer-focused medical benefits that include coverage on new cancer drugs, reconstructive surgery, post-cancer screening and psychological counselling.

Note: Terms and conditions apply.

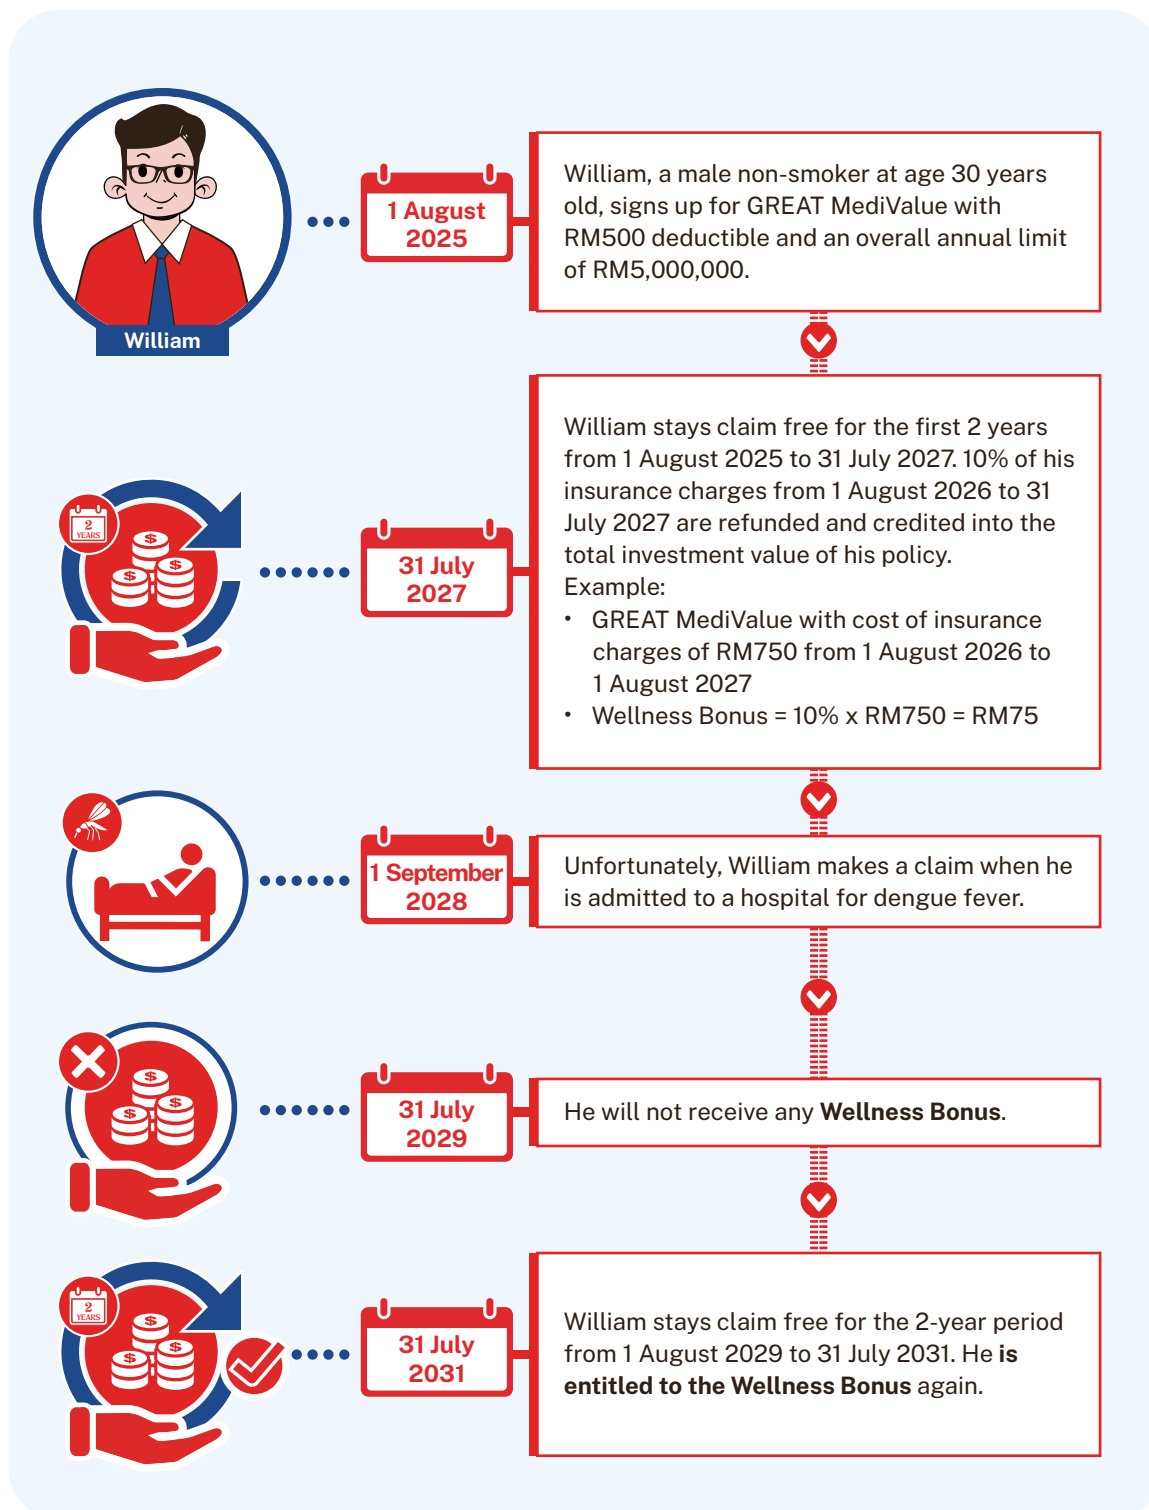

Enjoy Wellness Bonus every two years by staying healthy

GREAT MediValue rewards you for staying healthy and for not making any claims on your medical insurance.

If you stay claim-free within every two-years period, 10% of the insurance charges charged in the year before each refund will be refunded and credited into the total investment value of your policy at the end of the two-years period ("Wellness Bonus"). Should a claim be made during that period, you will not be entitled to the Wellness Bonus for that period. However, if you remain claim-free during the next two-years period, you will be entitled to the Wellness Bonus again.

Important notices

GREAT MediValue and GREAT MediValue Plus are unit deduction medical riders attachable to selected regular premium investment-linked insurance plans. **These plans are insurance products that are tied to the performance of the underlying assets, and are not pure investment products such as unit trusts.** The insurance charge to be imposed will be deducted from the total investment value of your policy on a monthly basis. You may stop paying premiums under the policy and still enjoy protection as long as there is sufficient total investment value to pay for the insurance charge. However, there is a possibility of the policy lapsing when the required charges, including rider charges exceed the total investment value of the fund units available. Purchasing too many unit deduction riders may deplete the fund units.

You have the option to include GREAT MediValue Plus to your investment-linked insurance plan; however, it must be attached together with GREAT MediValue. If GREAT MediValue Plus is subsequently included to your investment-linked insurance plan after your coverage under GREAT MediValue becomes effective, then the first policy year of GREAT MediValue Plus will be adjusted accordingly and will be shorter than a year. For subsequent years, the policy anniversary of GREAT MediValue Plus will coincide with GREAT MediValue's policy anniversary.

You should satisfy yourself that these riders will best serve your needs and that the premium payable under the policy is an amount you can afford. A free-look period of 15 days is given for you to review the suitability of the Medical and Health Insurance (MHI) product. If a rider is cancelled during this period, the policy owner is entitled to the reinstatement of the units deducted for the payment of insurance charge after net of expenses incurred for the medical examination, if any. If you switch your Medical Policy/Rider from one company to another or if you exchange your current Medical Policy/Rider with another Medical Policy/Rider within the same company, you may be required to submit an application where acceptance of your proposal will be subject to the terms and conditions to be imposed at the time of Policy/Rider switching or replacement.
